EduMentor AI

UI / UX Guidelines

Version: 2.0

Status: MVP

Design Philosophy

EduMentor AI should feel like:

ChatGPT
+
Linear
+
Notion
+
Modern SaaS

The interface must feel:

- Professional
- Clean
- Fast
- Intelligent
- Minimal

The platform should not resemble:

- School software
 - LMS systems
 - Children's learning apps
-

Design Principles

Simplicity First

Every screen should focus on a single primary action.

Avoid:

- Visual clutter
 - Excessive colors
 - Unnecessary animations
 - Complex layouts
-

AI-First Experience

The AI Tutor is the core feature.

The interface should always guide users toward:

Learning

- Asking Questions
- Taking Quizzes
- Tracking Progress

Consistency

Use:

- Consistent spacing
- Consistent typography
- Consistent iconography
- Consistent button styles

Across all pages.

Design System

Color Palette

Primary

#0F172A
Slate 900

Secondary

#1E293B
Slate 800

Surface

#111827
Gray 900

Border

#334155
Slate 700

Text Primary

#F8FAFC
Slate 50

Text Secondary

#94A3B8
Slate 400

Success

#22C55E

Warning

#F59E0B

Error

#EF4444

Theme Strategy

Default:

Dark Mode

Optional:

Light Mode

Dark mode should be the primary design target.

Typography

Font

Recommended:

Inter

Fallback:

system-ui

Heading Sizes

H1

36px
Bold

H2

30px
SemiBold

H3

24px
SemiBold

Body

16px
Regular

Small Text

14px
Regular

Icon System

Use:

Lucide React

Only.

Approved Icons

Examples:

Home

MessageSquare

BookOpen

GraduationCap

BarChart3

Settings

User

Plus

Trash

Edit

ArrowRight

Avoid

Emoji Icons

Cartoon Icons

Illustrated Icons

Layout Structure

Desktop Layout

Content Area:

Mobile Layout

Sidebar becomes:

Bottom navigation is optional.

Landing Page

Route:

Sections

Hero Section

Contains:

- Headline
- Description
- CTA Button

Example CTA

Start Learning Free

Features Section

Cards:

AI Tutor

Adaptive Quizzes

Progress Tracking

Persistent Learning Sessions

How It Works

Steps:

Create Account

Start Learning

Take Quizzes

Track Progress

Update Profile

Settings Page

Route:

/settings

Sections

Appearance

- Dark Mode
 - Light Mode
-

Learning Preferences

- Skill Level
 - Learning Goal
-

Account

- Logout
 - Delete Account
-

Buttons

Primary Button

Used for:

- Login
 - Register
 - Send Message
 - Generate Quiz
-

Secondary Button

Used for:

- Cancel
 - Back
-

Cards

All cards should use:

Rounded XL

Subtle Border

Soft Shadow

Loading States

Use:

Skeleton Loaders

Never use empty screens.

Empty States

Example:

No Learning Sessions Yet

Start Your First Session

Error States

Example:

Something Went Wrong

Try Again

Responsive Requirements

Supported:

- Mobile
 - Tablet
 - Desktop
-

Minimum Width:

320px

Accessibility

Support:

- Keyboard Navigation
 - Screen Readers
 - Focus Indicators
 - Proper Contrast Ratios
-

Animation Guidelines

Use subtle animations only.

Recommended:

Fade

Slide

Scale

Avoid:

Bounce

Spin

Flash

Performance Guidelines

UI should:

- Load quickly
- Avoid layout shifts
- Minimize re-renders

Final UX Goal

A user should be able to:

Register → Complete Onboarding → Start Learning → Chat With AI → Take Adaptive Quiz → View Progress

without confusion, documentation, or external assistance.

If the user can achieve this naturally, the UX is considered successful.
